January 2009

January 2009 Newsletter

I hope everybody got through the Christmas holidays in good shape. It is always a nice time but, almost never a restful time. This will be a very abbreviated newsletter given the fact that there was no meeting in December to report upon.

I hope to see a bunch of you out at the field on New Years' Day for the informal "Frozen Fingers" gathering. It will be followed by a coffee binge at the Tim Horton's in Brooklyn. Don't forget that it's a new year and if you intend to fly, you'll need proof of your 2009 MAAC insurance.

The next meeting will be on January 18th at the usual place and time. Come on out, bring any project you are working on for a "show and Tell" session and also any Trash and Treasures you are trying to get rid of. I think there will be further discussion as regards the Heydenshore annual event. We should really be into the volunteering, organizing mode now.

John Alford advises that he is in receipt of a nice invitation from the Radio Control Flying Club of Toronto. They are hosting a symposium on the new 2.4 GHz radio systems. Dave Dietricks from FUTABA and Sam Filppelli from JR will be on hand to display their new radios and to answer any questions you may have. There will be free coffee (always a good thing). The event will be held on Friday the 9th of January 2009 at 7:00 PM. The location is the Sir Alexander MacKenzie Public School located at 33 Heather Road in Scarborough. (north of Sheppard off Brimley Road) If the west parking lot is full there is additional parking at the south side of the school.

Another date worth noting is Saturday February 7th, 2009. The Ajax club is hosting a mid winter indoor funfly. The location is at Nevada Bob's Indoor Golf Dome which is at 5750 Datsun Road in the Highway 401 and Dixie Road area. The event will be held from 9:00PM to midnight that evening. MAAC membership is required and planes and helis of 450 size and smaller are invited. There will be a \$15.00 fee for pilots and spectators are free.

Best Wishes for a Happy New Year.
