Whitby Aero Modellers Safety Rules

Please keep this page for your information

1. Guests wishing to fly must show their current MAAC or AMA membership cards
2. No one shall fly unassisted until they have their wings. It is recommended that no one should ever fly when alone.
3. The field box should be opened before anyone starts their engines or flies. The last club member to leave the field shall lock both the field box and the gate.
4. Airplanes shall never be flown directly at or over the pit area. No one shall taxi into or out of the pit area.
5. Please avoid flying near the Off Leash Dog Park.
6. Flyers shall stand in the designated area while maneuvering their aircraft, except when taking off or hand launching.
7. All aircraft must be secured against moving forward before starting the engine.
8. Giant scale aircraft (wingspan 80+ Inches) must be started at designated area on giant scale section and be taxied into the field.
9. All flying must cease during field maintenance.
10. No vehicles are permitted on the field at any time, except for field maintenance.
11. All youth (Under 16) must be accompanied by an adult.
12. No person shall fly any aircraft while under the influence of drugs or alcohol.
13. No member shall fly an aircraft in a manner that creates or is likely to create a hazard to full size aircraft. When there are low flying, full size aircraft near the field, you must land immediately.
14. Violation of rules 12 or 13 may result in immediate expulsion from the club as they are not subject to the progressive disciplinary code.
15. 3D flight or hovering will NOT be conducted within the perimeter of the runway unless you are the only one flying.
16. If you need to fly outside the expectations of rule 15 (or IMAC or other aerobatic patterns practice), you must communicate to the other members present your intentions and all must agree prior to flight.
17. Helicopter field on the west side of pit area, is made only for training purposes (hover and basic controls practice). For aerobatics and advanced flying please use main field and follow rules number 15 and 16.
18. All members flying FPV shall appoint a dedicated Spotter/Helper who must remain next to the pilot throughout the entire flight. Pilots should follow all MAAC safety code regarding FPV (Pages 10-13 Document # MSD 8) in http://www.asrcm.ns.ca/files/MAAC_Safety_Code.pdf
19. Engine Shut Off. The pilot must be able to shut off the model's engine by radio control with the plane in any position, (e.g., a servo dedicated to throttle control or a kill switch).
20. The hours of operation and the maximum noise limits at the Heber Down field shall be: Gliders and Electric Aircraft: Sunrise to Dusk; Glow/Gas/Turbine Aircraft: 7AM to Dusk
21. Aircraft which generate sound levels over 98dB should not be flown without special permission of club execs.
